

Looking to transfer to Marina Medical for your PAP supplies?

We're happy to have the privilege of taking care of you: but first we need your help to get the documentation we need to bill your insurance.

Your current PAP provider needs to give you the following:

- *Initial set up information, including the original office notes stating why your doctor referred you to the sleep lab, sleep study/studies, original delivery ticket that lists your machine and serial number, and for Medicare patients the office notes from your follow up appointment after set up
- *Most recent delivery ticket that shows the supplies you are currently using and when they were last received

Your current sleep provider or family physician can provide the following:

- *Updated prescription for your pap supplies
- *Demographic sheet with current contact information
- *Copies of the front and back of your insurance card
- *Our fax number is 855-519-6863

We look forward to taking care of all your PAP therapy needs once we've received this documentation, thank you for choosing Marina Medical!
